

Accidental Damage Home & Contents Insurance Market Guide

Home and Contents Insurance is available in two different levels of coverage, namely *Defined Events* cover or *Accidental Damage* cover.

The sum insured that you select must be sufficient to allow for the full replacement of your home &/or its contents otherwise you would have to pay the balance yourself in the event of a loss in excess of the sum insured.

Defined Events

Defined Events policy covers only the specified insured events described in the policy document.

All other events that might cause damage are excluded. Coverage for contents is restricted to the insured premises unless a *Valuables Option* is also arranged.

Accidental Damage

Accidental Damage policy provides the most comprehensive cover available for any accidental event, theft or loss unless specifically excluded in the policy document so it provides a more extensive safety net cover. Contents are usually automatically covered away from home.

Disclaimer: The Accidental Damage Home & Contents Insurance coverage comparisons were compiled by Donnellys from the Product Disclosure Statements (PDS) / Policy Documents viewed on the individual insurance providers' website. This information is provided as General Advice only and a Guide to the right policy for you. You should check the full details of coverage, cover limitations and exclusions before making a decision. Comprehensive Car Insurance Market Guide

Car Insurance is available in two different levels of coverage, namely *Market Value* or *Agreed Value*

Market Value

Market Value policies cover the cash purchase price of a car the same age, type, model and condition in your local area but excluding other costs.

In determining the *market value*, the internet, newspapers and dealer guides may be used for reference purposes.

Agreed Value

Agreed value policies cover you for a fixed amount which your car is insured for each period of insurance regardless of any price change for your car during that period for a guaranteed payout. It includes the value of insured accessories and equipment.

The IBNA Secure Car policy naturally contains cover limitations and exclusions so you will need to refer carefully to the Product Disclosure Statement and Policy Document to confirm its suitability to you.

You will not be covered for vehicle modifications that affect its speed or performance unless you disclose details to the insurer and they accept them in writing.

You must also disclose all potential drivers of the vehicle to be insured and their driving records/convictions otherwise a claim may be reduced or denied.

Disclaimer: The Car Insurance coverage comparisons were compiled by Donnellys from the Product Disclosure Statements (PDS) / Policy Documents viewed on the individual insurance providers' website. This information is provided as General Advice only and a Guide to the right policy for you. You should check the full details of coverage, cover limitations and exclusions before making a decision. No responsibility is accepted for any inadvertent inaccuracy of this information.
